Dutypoint LTD Design & Build

cobus

Dutypoint has become one of the leading players in fluid technology trusted by clients in the UK and internationally. Due to their ever-growing team, they acquired their new premises to consolidate their four sites under one roof in Gloucester.

We designed a welcoming reception that aligns with the Dutypoint brand for employees and visitors, creating a HQ feel whilst uniting all the teams under one roof where people were proud to work. With the increase in flexible working the workplace needed to include private meeting areas, collaborative zones and multi-purpose canteens to cater for the office and warehouse staff.

Whilst the design incorporated their traditional brand colours, the Cobus design team introduced complimentary blues and purples into the workspace to create a softer feel in client facing areas.

Dutypoint's new Head Office is a welcoming, positive space that has facilitated their growth and future plans.

"We wanted to create an enjoyable space that was comfortable and inspiring for the team – an area that helped maintain positivity. The team have settled into the new office quickly. It's great having the extra space; the vibrant colours and the plants in the office; having the collaboration spaces and less formal areas like the café lounge. It's given us a new dimension to work. Working with Cobus was very straight forward, they were very flexible and helpful throughout the whole process. They worked hard to complete the project against the tight timelines so we could move in before the end of the year, which was very important to us"

Nigel Freeman, Managing Director

Project Date: December 2022
Project Manager: Gemma Griffiths
Project Value: ££££
Categories: Commercial Design & Build
