# Bath College, Institution of Technology

Working closely with the architect and project team, we applied our four-step methodology to ensure every product specification aligned with the brief for a contemporary, industrial environment while remaining cost-effective and durable.

Bath College appointed Cobus to deliver the furniture fitout for the West of England Institute of Technology suite at the City Centre Campus. Working closely with the architect and project team, we applied our design-and-build methodology to ensure every product specification aligned with the brief for a contemporary, industrial environment while remaining cost-effective and durable.

finishes that integrate seamlessly with the wider interior scheme. A refined monotone palette, punctuated with vibrant yellow accents, reinforces the industrial aesthetic and creates cohesion throughout. The result is a future-ready learning environment that balances practicality, identity and long-term value for the college.

Across two floors, we fitted out classrooms, meeting rooms, collaborative zones and multi-use spaces, selecting furniture and
