## Healthcare Group Design & Build

# cobus

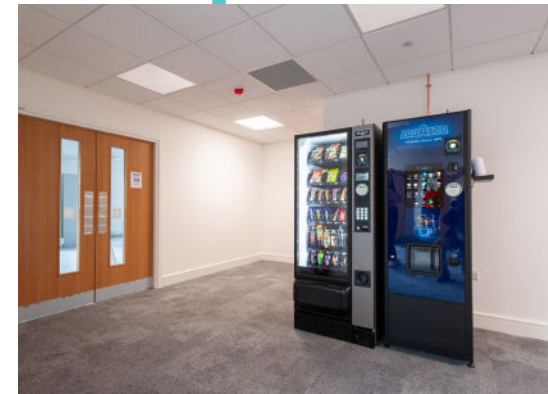

Commercial  
Design & Build, Fit out

A market leader in healthcare services that enhance accessibility and mobility, collaborated with us to complete a CAT B fit-out of their new building in Cambridge. The new workplace was designed in partnership with the NHS to create a patient-focused site to provide rehabilitation care in specialties including orthotics, prosthetics, and wheelchairs.

The 10,000 sqft refurbishment of their new building comprised collaborative workshop spaces, standard

workstations, and clinics for patients to work with their physicians. The ground & first floor hosts the patient area which incorporates a physio/ gym space alongside the paediatric and prosthetic consulting rooms.

It was a fantastic opportunity to collaborate with the Healthcare Group, to help transform a traditional office building into a state-of-the-art workplace with the facilities necessary to achieve their business goals of enhancing patient mobility and improving independence.

Project Date: 2024  
Project Manager: Jerry Hubble  
Project Size: 10,000 Sq Ft  
Categories: Commercial Fit out, Design & Build
