International Plywood LTD Supply & Fitout

cobus

One of the largest international importers of plywood and panel products, International Plywood, recently moved into their new distribution centre in Gloucester. As part of their CAT B fitout, we partnered with the architect and client to specify and install the furnishings of the project to bring it to completion.

We were tasked to fitout the traditional office space, meeting rooms and breakout zones. In the traditional office space, we selected furniture that maximised the functionality and storage in the given space.

On both floors, breakout areas were included in the design to create a space for employees to collaborate. Keeping on brand, the furniture was specified in muted green and purple tones creating a calming space for the employees to enjoy when taking a break from the working day.

Overall, it was fantastic to be apart of this project and collaborate with the client to create another inspiring space.

Project Date: October 2022
Project Manager: Neville Coldrick
Project Value: £££
Categories: Commercial, Supply & Fitout
