The Richard Pate School Washroom Refurbishment

The Richard Pate School partnered with Cobus to renovate their student washrooms. Being situated in the nursery, Cobus set out to design and build a modern, playful design targeted towards the younger years using the space.

Part of the brief was to ensure the materials used would stand the test of time in a washroom. We specified a solid grade laminate instead of MFC for the cubicle units, due to its durability and liquid and water-resistant qualities; an ideal choice for high traffic areas. Available in a variety of colours, we were able to create a design which met the clients brief.

Working with the client we came up with two different colour schemes. The design was completed with some playful wall décor provided by Richard Pates themselves. It was a great project to be apart of creating a clean, modern washroom with a high visual appeal.

Project Date: March 2022
Project Manager: Gemma Griffiths
Project Value: ££
Categories: Educational, Washrooms
