Hartpury College

In collaboration with their construction partners, we delivered a contemporary environment that enhances the learning experience for future veterinary professionals

We partnered with Hartpury College & University create a modern, collaborative learning environment at the new build, Veterinary Nursing and Technical Skills Centre. Working alongside the construction team, we delivered a contemporary environment that enhances the learning experience for future veterinary professionals. Hartpury required a space that moved beyond traditional classroom settings, offering students a relaxed yet functional environment to work collaboratively. The design

combined contemporary aesthetics with high-quality furniture solutions, ensuring durability and practicality. The new setting encourages teamwork, supports diverse study styles, and aligns with Hartpury's commitment to excellence in education and veterinary training.
