Design & Build, Fit out

# DNV

We delivered a stand-out workplace for global assurance provider DNV, transforming the 4th floor of 3 Rivergate Bristol, into a modern, hybrid-ready workspace spanning 11,000 Sq Ft.

With a tight deadline to enable staff move-in by the end of Q1, the project required a fast-paced, collaborative approach. We worked closely with the base build contractor and CBRE's project management team to ensure seamless coordination across all stages. It enabled DNV to occupy their workplace months ahead of other tenants at 3 Rivergate.

We designed the space around the CAT A layout, highlighting the exposed ceilings and rafters. Aligning the design with DNV's branding was important, to ensure the space had the same look and feel as their other offices, whilst preserving the unique character of the space. Our goal was to maintain a cohesive look and feel throughout the entire building.

Our design stood out during the tender process for its emphasis on flexibility, wellbeing, and sustainability - core priorities for DNV. We specified sustainable materials and construction methods aligned with the building's BREEAM rating, including reusing existing furniture wherever feasible, directly supporting DNV's ESG commitments.

To support inclusivity and wellbeing, the design features a spacious kitchen and breakout area complete with activities to allow staff to wind down, as well as dedicated wellness rooms. We also managed the FF&E installation and staff relocation, ensuring a seamless transition with minimal disruption, allowing DNV's teams to hit the ground running in their new environment.
